

# RETAIL ASSORTMENT

Yuu'n Mee offers you strictly controlled sustainable seafood products in Premium Quality - with a uniquely fresh taste. Stringent quality assurance, seamless traceability, transparency and certified sustainable production methods are part and parcel of this brand's high quality standards.

Yuu'n Mee Premium Shrimps are produced under a strict 6-star quality program in compliance with social and ecological guidelines. These 6-stars guarantee: sustainability, harvest freshness, 100% production without antibiotics, fair working conditions, controlled product quality.

All Yuu'n Mee products are frozen piece-by-piece in a process called „IQF“ (individually quick frozen), allowing individual removal from the package.

Yuu'n Mee Premium Shrimps are manually deveined using a pin („pin-deveined“). Therefore the shrimps retain their firm texture.

MSC-certified sustainable fisheries. At the moment the product line covers three products: plaice, cod, alaska pollock.
