

The Mangrove Protection and
Rehabilitation Center, Samut Sakorn
74000, Thailand

30th September 2024

Subject: Thank you for cooperation and support

To: Yuu'n Mee fine foods Vertriebs-GmbH

Ref: Mangrove Planting Project

The Mangrove Protection and Rehabilitation Center has organized a mangrove planting project to conserve nursery grounds for animal larvae, prevent soil erosion from coastal erosion, and create food sources for aquatic animals, including the conservation and restoration of natural resources in the east coast of the Gulf of Thailand.

Since 2010, Yuu'n Mee fine foods Vertriebs-GmbH, Austria, has provided more than 270,000 mangrove seedlings, which the center has already planted all mangrove seedling on the east coast of Samut Sakhon Province.

The Mangrove Protection and Rehabilitation Center would like to thank Yuu'n Mee fine foods Vertriebs-GmbH for supporting and providing mangrove seedlings for the past 14 years.

Sincerely yours,

(Mr. Narin Bunruam)

Consultant and project leader
